

Madison has been with the Community Foundation since 2019. As the Program Officer, she is responsible for ensuring a smooth grants and scholarship program, while engaging with our community partners and how we can collaborate together for a better community. Madison grew up in Tecumseh, Michigan and graduated from Tecumseh High School in 2014. Ever since, she has worked in a professional environment where she developed excellent customer service and organizational skills. Madison moved to Branch County in 2018, where she now has a very happy life, living on a farm in Bronson. You can find her spending time with her family, riding along in the tractor during a busy planting and harvest season, and keeping her high energy Labrador Retriever entertained.
