Personal Statement/Profile

Tell us why you are attending college; your career goals; how your prior education, work, and/or volunteer experience prepared you for college and/or your chosen career; and why you believe you will be successful in college.

Example

I am attending college so that I can become an elementary teacher. I would also like to get a minor in special education. My career goal is to be a first-grade teacher in a big city like Detroit or Chicago. I attended the Branch Area Career Center my senior year and was in the Education Academy Program. This gave me classroom experience and helped me confirm my decision to be an elementary teacher. I taught lesson plans, helped struggling kids get to the correct reading level for their grade and got to observe a special education environment. This also prepared me for college because I was not with my teacher every day and the assignments were very in depth and complex. I believe I will be successful in college because I have taken two online college courses and the work from my Education Academy class has prepared me for future college assignments. Since Sophomore year I have worked a part time job along with sports and school. This has made it possible for me to balance a busy schedule but still succeed in all parts of my life. I have had a job in food and retail so this has prepared me for other jobs during college and after.
